

Registration Fees

The registration fee for Delegates and Presenters includes:

- certificate of attendance
- badge and congress kit
- coffee break and lunch according to the programme
- 22% Italian VAT (tax)

	EARLY BIRD FEE From July 1 st to October 31 st 2017	REGULAR FEE From November 1 st 2017 to February 28 th 2018	LATE FEE from March 1 st and ONSITE
Medical Doctor/ Biologist	€ 400,00	€ 500,00	€ 600,00
Resident, Nurses and Midwives	€ 150,00	€ 180,00	€ 230,00
Low and Middle Income Countries*	€ 300,00	€ 350,00	€ 450,00

Attendance is limited to the first 300 delegates

*LMICs: Afghanistan, Angola, Armenia, Azerbaijan, Bangladesh, Belize, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo, Dem. Rep, Cote d'Ivoire, Cuba, Dominican Republic, El Salvador, Equatorial Guinea, Eritrea, Ethiopia, Fiji, Gambia, Ghana, Guatemala, Guinea, Guinea-Bissau, Haiti, Honduras, India, Jamaica, Kazakhstan, Kenya, Kiribati, Kyrgyz Republic, Laos, Lesotho, Liberia, Madagascar, Malawi, Maldives, Mali, Marshall Islands, Mauritania, Micronesia, Fed. Sts., Moldova, Mongolia, Mozambique, Myanmar, Namibia, Nepal, Nicaragua, Niger, Nigeria, Pakistan, Papua New Guinea, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Africa, Sri Lanka, St. Vincent and the Grenadines, Sudan, Suriname, Swaziland, Tajikistan, Tanzania, Timor-Leste, Togo, Tonga, Turkmenistan, Uganda, Uzbekistan, Vanuatu, Vietnam, Yemen, Zambia, Zimbabwe

XIII INTERNATIONAL WORKSHOP ON LOWER GENITAL TRACT PATHOLOGY

HPV Disease and Cervical Cancer: Summing Up

ROME,
APRIL 12-13 2018

COURSE
DIRECTORS
Antonio Frega
Cesare Gentili
Philip Davies

ABSTRACTS

Abstracts must be submitted within February 28th 2018

In order to submit the abstracts, authors must select one of the topics listed below. Abstract will be selected by the Scientific Committee for oral presentations. Abstract can be sent only using the online procedure available on the Congress website. Papers that have been already presented at other conferences will not be accepted. Abstracts will be written in English. At least one of the Authors of the accepted abstract must be registered at the Congress.

Topics

- HPV Infection and Carcinogenesis
- Epidemiology of Cervical Cancer and HPV Infection
- Cervical Screening
- Colposcopy
- Treatment and Follow-up
- Molecular Biology and Cytopathology
- HPV Vaccination
- HPV and Fertility
- HPV and Vaginal Infections
- Miscellany

Guidelines and other information concerning abstract submission are available on the Congress website www.hpvrrome.com

ITALIAN EMC ACCREDITATION

The meeting will be accredited for the ECM credits for Italian doctors.

To obtain the credits it is necessary to attend the meeting.

No promotional activities will be permitted in the same room before, during, or after an ECM activity.

The specialties and disciplines able to apply for Italian ECM credits are:

- **Medico Chirurgo/Surgeon:** Anatomia Patologica; Igiene, epidemiologia e sanità pubblica; Ginecologia e Ostetricia; Oncologia; Patologia clinica (laboratorio di analisi chimico-cliniche e microbiologia)
- **Biologo:** Anatomia Patologica; Igiene, epidemiologia e sanità pubblica; Patologia clinica (laboratorio di analisi chimico-cliniche e microbiologia)
- **Tecnici di laboratorio biomedico**
- **Infermiere ed ostetriche**

LANGUAGE

English will be the official language of the congress.
Simultaneous translation into Italian will be provided.

Thursday 12 April 2018

Morning

ROOM A (Plenary session)

8.30 Opening Lecture

- HPV infection and carcinogenesis: a public health perspective.

8.50-10.20 HPV infection and Carcinogenesis

- Human papillomavirus infection and the induction of neoplasia.
- The natural history of HPV infection in screening age women: do we have enough data to really understand what is happening in this age group?
- Persistent vs repeated infections: can we tell the difference and does it make a difference to cervical carcinogenesis?
- HPV infection in men: do we understand the natural history and clinical implications for men and their partners?

10.20-11.00 Epidemiology of Cervical Cancer and HPV Infection

- Cervical cancer trends around the world: are we making a difference?
- HPV vaccination and its impact on HPV infection rates around the world.

11.30-13.00 Cervical Screening

- The current status of cervical screening programmes around the world: are we making progress where it is needed most or just further improving the best?
- HPV testing for primary screening: who is doing what?
- The latest data from the HPV primary screening programmes: the benefits and the challenges that remain to be solved.
- Cervical screening: is there still a role for the Pap test?

ROOM B

9.00-13.00 Free Communications

ROOM A

13.10-14.30 Sponsored Symposia

Afternoon

ROOM A

14.30-15.40 Cervical Screening: the New Challenges

- Estimating the impact of HPV primary screening and HPV vaccination on cervical cancer rates.
- The new recommendations for cervical cancer screening in U.S.
- Reaching under- or never-screened women: is self-sampling the answer?

15.40-16.50 HPV Positive: What Next?

- HPV screen positive: what are the triage options and their associated risks.
- Persistent HPV infection without colposcopically visible cervical disease: how common and what is the appropriate follow-up?
- How does HPV status affect the treatment of low-grade cervical disease?

17.10-18.00 Colposcopy in the Era of HPV Vaccination and HPV Screening

- The implications of HPV vaccination for the practice of colposcopy.
- Should colposcopists be re-trained to deal with the realities of the HPV era?
- HPV primary screening: will this affect the accuracy of colposcopy?

18.00-18.45 Noncompliance with Colposcopy Referral

- Noncompliance with colposcopy referral: the extent of the problem in different countries.
- Why do women decide not to go to colposcopy?
- Methods to minimize default from colposcopy: what works and what does not.

ROOM B

14.30-16.50 Updates in Molecular Biology and Cytopathology

- Latent papillomavirus infections: the role of HPV test.
- Getting around in molecular testing jungle: what clinicians and pathologists should know to properly interpret the results.
- Investigating diagnostic problems of CIN1 and CIN2 associated with high-risk HPV by combining the novel molecular biomarker PanHPV E4 with P16INK4a.
- The role of the cytology and human papillomavirus genotyping in screening for anal cancer.
- Is the new Bethesda system tailored for the HPV screening and molecular diagnosis?
- The triage cytology: what molecular biology cannot provide.

17.10-18.30 Ask the Expert

- Opening forum: would you like to ask a panel of experts?

Friday 13 April 2018

Morning

ROOM A (Plenary session)

8.30-10.30 HPV Vaccination

- HPV vaccination around the world today: the programs and the coverage rates.
- HPV vaccination: long-term efficacy and protection. What are the data?
- Screening in vaccinated and unvaccinated women: are two algorithms necessary and if so how do we implement them?
- HPV vaccination of boys: who is doing what?
- Improving HPV vaccination coverage: what works and what does not.
- The nonavalent HPV vaccine: what changes?

11.10-13.00 Ensuring the Safety and Effectiveness of Colposcopy

- Adverse sequela after the treatment of CIN: an international comparison.
- Treatment of cervical pre-cancer, current best practice.
- Colposcopy training: the similarities and differences across Europe.
- Training colleagues in middle income countries.
- Quality assurance of colposcopy: the European perspective.
- Quality assurance of colposcopy: the American perspective.

ROOM B

8.30-13.00 Free Communications

13.15-14.15 Sponsored Symposia

Afternoon

ROOM A

14.15-15.25 Public Education and Coverage Rates

- Social and psychological impact of HPV testing in cervical screening.
- Reaching under- or never-screened women: is self-sampling the answer?
- The impact of HPV vaccination on cervical cancer screening coverage: are the predictions proving to be true?
- HPV vaccination for adolescents, Pap screening for under-30s, HPV screening for over 30's: how can we effectively communicate all this to ensure high programme participation?

15.25-16.15 HPV and Vaginal Infections

- The role of vaginal microbiome in HPV infection and disease.
- Chlamydia trachomatis infection: implications for HPV status and cervical cancer.
- The effect of intrauterine devices on acquisition and clearance of HPV

16.15-16.55 Miscellany

- HPV and fertility.
- The role of oral contraception and hormone replacement therapy in HPV infection and disease.
- Herbal and probiotic support: a help to speed up healing?

ROOM B

14.15-14.45 Pap smear: Never Say Never Again

- Don't forget me: cytology in HPV negative lesions.
- What clinicians need from cytology.

14.55-17.10 Cervical Cytopathology in HPV Testing Era: interactive slide seminar of cervical cytopathology.

ROOM A (Plenary session)

17.10 Closing Lecture

- HPV infection and disease a bundle of answered questions.

17.30 Presentation of the best 5 free communications and award for the best

18.10 ECM test

18.30 Awarding of the three best speakers and conclusions
